AI DECISION

✓ LOAN APPROVED

AI Model Decision based on applicant & financial profile

CONFIDENCE

94.63%

RISK LEVEL

HIGH

AI EXPLANATION

Financial Profile Summary

The applicant demonstrates a financially stable profile with acceptable credit behaviour.

Overall Assessment

The overall financial profile indicates an elevated lending risk.

Model Insight

Multiple applicant attributes collectively influenced the rejection.

Recommendation

Review the application manually or improve the financial profile before reapplying.

DISCLAIMER

This assessment has been generated using a Machine Learning model. The prediction should assist loan officers and must not be treated as the sole approval criterion. Final approval should follow institutional policies and manual verification.
